VOLUNTEER & WORK EXPERIENCE:

Mouse
Learning Design Manager

New York, NY
7/2015 - Present

// As part of Learning Design web team designed and prototyped Mouse Create, a learning management platform for technology and design curriculum and digital badges. Built a reporting tool for Mouse Create using Ruby on Rails and help website using Node, Express and Vue.js. Wrote and edited coding, CAD, circuitry, green technology, hardware, web literacy, and game design curriculum. Created web apps to teach concepts like web literacy, encryption and data privacy. Redesigned organization wide Salesforce implementation and created new data management system. Managed a team that oversaw Mouse program implementation in over 300 schools nationwide. Supported interview process for new hires.

Mouse
Learning Network Coordinator

New York, NY
9/2014 - 7/2015

// Supported Design League program by teaching electronics and working with high school students to prototype an adaptive joystick. Lead educator trainings for public school educators. Documented use of learning management system to prepare for platform redesign. Documented and worked to troubleshoot customer issues.

HIVE NYC/PASE
Webmaker Trainer

New York, NY
1/2014 – 6/2014, 1/2015 - 6/2015

// Worked with PASE Explorers after school program sites to design and create websites using Mozilla Webmaker Tools. Trained PASE site staff on using Webmaker, HTML and CSS.

Mouse
Training Specialist

New York, NY
9/2011 - 6/2014

// Worked to support Mouse curriculum in over 100 NYC schools. Wrote technology curriculum and lead workshops for students. Supported partnership between Mouse and MakerBot.

Freelance Web Development and Design

9/2013 - Present

// Developed various websites for small businesses and creative projects.

Phone Booth Press
Co-founder

7/2010 – Present

// Co-founded a (very) small press and published books and print sets.

Luna Sandals
Crafts Monkey/Customer Service

Seattle, WA
1/2011 – 8/2011

// Fabricated sandals, developed new models, streamlined ordering system, documented web bugs.

826 Seattle
